

Business Email Hosting

Works Perfectly Across All Devices

- ✓ Custom Email Address, eg. name@yourcompany.com
- ✓ Seamlessly syncs across different devices for maximum flexibility
- ✓ Team collaboration to share contacts, calendars, tasks and notes.

Custom Email Address eg. name@yourcompany.com

Free email accounts such as Gmail, Hotmail and Yahoo mail are unprofessional in the eyes of your clients. These free email addresses detract from the value you want to offer your customers, leaving them with a bad impression towards your business. Having a company custom email address is important to build trust and confidence with your clients.

Your customers are
9X more likely

to choose a business with a domain-based email address over a business with a free domain or free email

That's why you need our Professional Business Email Hosting!
